

## Week Commencing 25.05.2020

Hello!

I hope that you are keeping safe and well.

I've added some new files to the SEND home learning page. It's half term so you might be having a week or some days off – you could help around the house and have a look through the window at the world around you.

As always, feel free to contact me on [sdoherty@pippins.slough.sch.uk](mailto:sdoherty@pippins.slough.sch.uk)

### Life skills ideas for the week:

Help out with the washing – how much washing powder do you need to use? Peg out the washing on a washing line or drier.

Try to learn to tie some shoelaces – are there different ways you could try this?

Help take out the bins – do you have different bins for different things?

### Wellbeing ideas for the week:

(all ideas can be found in the wellbeing pack on the SEND home learning page)

Write or draw

What I love about being at home

What I miss about school

### Suggested websites and apps:

#### Sequencing and Narrative skills support

## Activity ideas:

**Marshmallow building** – Can you build a tower or building using marshmallows and spaghetti? How will you put it all together?

**Measure it** – can you measure the perimeter of some rooms in your home – how would you be able to work out the area?

**Lego challenge** – marble maze – can you create a marble maze or even a maze for a lego figure or other toy?

## Framing Nature

### Framing Nature

**You will need:**

- Cereal box
- Scissors
- Camera

1. Cut out a cardboard frame from a cereal box. Ask an adult to help with the centre!
2. On a walk or in the garden, use your frame to capture nature.
3. Take a photograph and create a nature collage!

**EXTENSION**

Why don't you draw or paint what you have captured in your frame?

Use your images to create a book about nature. Label each flower, plant or tree and add a description.

Start a project about cloud formations and use your frame to capture the different cloud formations.

Take time to notice and appreciate the beauty of nature around you.
